INTRODUCTION

Wirquin is a french company created in the late 1960's by the meeting of two people full of energy and ideas: Henry Wirquin & **Daniel LE COENT**.

Innovation is at the core of the company's DNA. It is with an innovative idea that Wirquin made a name for itself on the sanitary ware market: the invention of the double flush 3/6L!

New Look, an unique and graphic design!

Smart Membrane Technology*!

wirquin
Innovation

The last generation Wirquin's cartridge replaces the traditional water trap. Patented, it is equipped with a new silicone membrane.

NO SMELLS

The membrane opens when water passes and closes automatically afterwards. Its external bi-injected washer guarantees a perfect air-tightness. No more bad smells, no more pipe noises, no more desiphoning possible.

EASY TO CLEAN

The membrane and hair filter are removable for quick and easy cleaning with soap and water and for full access to the pipes.

HAIR FILTER

The new filter effectively traps all hair.

SMART Membrane Technology

No smells

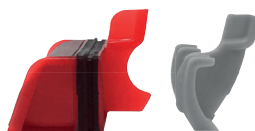

Prevents noises in the pipes

Create a natural ventilation in the pipes and prevent desiphoning

SENZO

YEARS
GUARANTEE
5

By abandoning the classical water seal, the SENZO frees itself from all the inconveniences according to a classical bottle siphon in terms of space, rigidity and installation. Available in Ø32 and Ø40.

> HVAC (HEATING, VENTILATION & AIR-CONDITIONNING)

The SENZO dry siphon is particularly suitable for the condensation drainage of the heat recovery unit, air conditioning and heat pump.

EXTRA FLAT

Extra flat, only 54mm under the basin. Frees up huge space.

FLEXIBLE BODY

Easy to connect to all configurations.

MEMBRANE TECHNOLOGY

Membrane technology replaces the traditional depth of seal. This avoids any risk of siphoning, no noise and no bad smells which come back from the canalizations.

QUICK TO INSTALL

Reliable, easy and quick to install. Double lips washer push fit outlet.

31560002 - Ø32 mm

31160002 - Ø40 mm

NEO & NEO *AIR*

Safe and quick to install,
WIRQUIN NEO is designed to
satisfy all the installers and end
users needs.

MADE IN
FRANCE

AIR SYSTEM

Wirquin NEO AIR is guaranteed leaks-free thanks to overmoulded washers (bi-injection), no loss of washers and the washers are always correctly positioned. The innovative and patented **AIR SYSTEM** replaces the traditional vent pipe and ensures the natural ventilation of the drain pipes, preventing suction of the depth of seal and therefore noise and odor nuisance.

AIR SYSTEM FUNCTION

Allows a natural ventilation in the pipes to prevent the suction of the water seal.

100% (BI-INJECTION)

100% bi injected-washers. No risk of washers lose or to be in the wrong place: total protection against leaks.

QUICK-SAFE FUNCTION

A quarter turn nut with bi-injected washer allows a quick, easy and reliable installation.

SNEL EN EENVOUDIG TE REINIGEN

Removable base with quarter turn opening.
