SWAN

Art of bathroom

The **SWAN** collection is composed of several trendy materials and colours deployed according to three major items:

1 TRAYS

— Low Profile Shower Trays you will discover for all ranges with a square grid finish or a channel grate finish. Many formats available. Customized also.

2 WALL CLADDING PANELS

— Wall Cladding Panels which allow for wall covering in renovation (ideal on old tiling) or in new for recessed faucets. These panels with a thickness of 1cm will be ideal – offering a harmonious set that removes most of the unsightly joints of traditional tiling.

3 SHELVES

— The corner shelves that fit in all corners of the bathroom, with discretion and elegance. Resistant up to 7 kg, these shelves are the perfect alternative to the old fashioned baskets that adorn most bathrooms.

WATERPROOF MAT —

Our SHOWER TRAYS are equipped with a waterproof mat bonded with the trap and glued under the tray. This mat provides a wall lift in addition to a peripheral seal, thus ensuring the waterproofing of the installation.

ANTI-SLIP —

All our SHOWER TRAYS are Anti-Slip. However, depending on your requirements, we can change the slip criteria from PN12 to PN18 or PN24. The option is applicable after the laying of the tray.

TYPE OF PRODUCT	CLASSIFICATION ANTI-SLIP
SHOWER TRAYS IN RESIN STONE GRAPHITE / SLATE / LEATHER	CLASS C (Equivalent PN24)
SHOWER TRAYS IN NATURAL STONESTONE	CLASS C (Equivalent PN24)
SHOWER TRAYS IN SOLID SURFACE SMOOTH	CLASS A (Equivalent PN12)

LIGHT WEIGHT —

ONLY 20 KG/M²

The composition of our products is made up of a solid topping with an excellent insulator that allows good product dilation when installed and also better insulation of the shower space. The lighter weight is achieved whilst remaining very robust. This makes it easy to transport and install.

RESISTANCE — to chemicals

The treatment product applied to our products give the SHOWER TRAYS a significant resistance to chemicals and abrasion. Nevertheless, we recommend avoiding abrasive sponges and prefer soft bristles.

TYPE OF PRODUCT	EXPOSURE TIME	RESULT
WHITE SPIRIT	16 HOURS	NO CHANGE
CITRIC ACID		
URIC ACID		
ACETONE		
BLEACH		
WHITE VINEGAR		
LIMESCALE

CUT TO SIZE —

All our SHOWER TRAYS are cuttable with a diamond disc cutter.

We can also deliver the bespoke trays (option) with an additional delay of 4 - 8 weeks.

Don't hesitate to consult us!

EVACUATION: THREE PRODUCTS TO CHOOSE FROM

The traps are all offered in 40mm diameter (Glue or compression). The choice of our wastes was based on those designed by our partner WIRQUIN. Flow is at the center of the requirements, as is the ease of connection and installation and Wirquin innovations with the JAMES (Vertical or Horizontal Orientable) and the 4 cm ultra-flat SLIM waste perfectly meet these requirements.

360° or ultra-flat, the assurance of finding the ideal waste for your construction constraints.
